

How to Use COAT DEFENSE®

TROUBLE SPOT DRYING PASTE

- Before applying Paste, clean and dry application area.
- DO NOT PICK OFF SCABS. Please allow scabs to fall off on their own with Paste.
- Using fingertips, scoop paste from container, spreading it thickly (like cream cheese on a bagel) onto affected area and surrounding area down to the skin. Be sure to work all the way down to skin.
- Let dry until paste has turned white.
- Leave on for several days, allow paste to work it's magic. If area is not completely healed...
- Reapply if necessary to areas that may have become exposed or worn off.
- If you need to remove dried Paste at any time, slightly moisten with water until paste is soft, then wipe or brush off gently.
